“MEPF Systems are the Lifelines of Buildings — Just as Organ Systems are to the Human Body.”

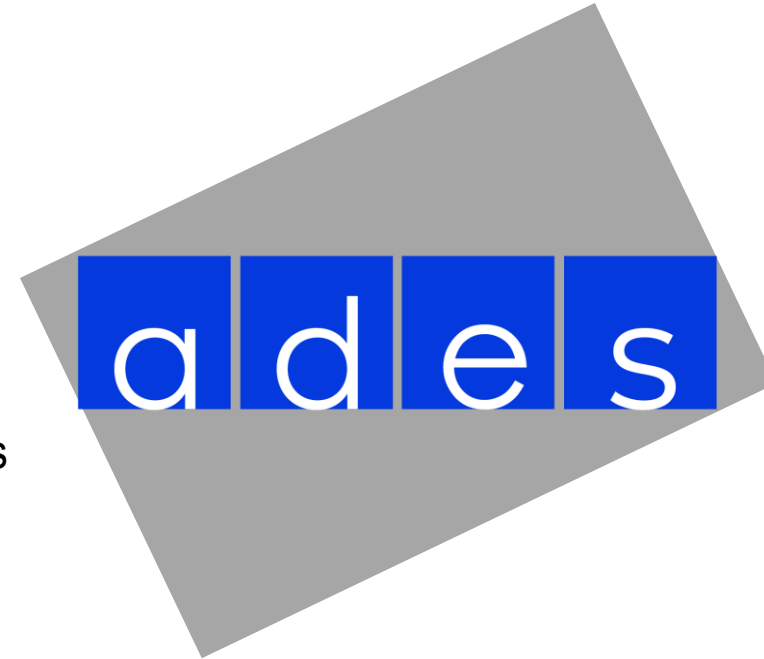

Engineering Excellence in MEPF Consultancy

Designing Smarter, Optimized Solutions

- The human body systems and MEPF (Mechanical, Electrical, Plumbing, and Fire Protection) engineering services are built on identical functional principles.
- Both systems represent an intricate network of specialized infrastructures designed to maintain homeostasis—keeping a biological organism alive or a every building operation

MEP systems turn buildings from empty rooms into comfortable spaces

- ADES was founded in 2008
- Dedicated professionals
- Outstanding design and consulting services
- Over 39+ years of collective industry experience
- Global perspective with experts from various locations
- Process-driven and service-oriented design firm
- Principal involvement in every project

“PROUDLY PROVIDING ENGINEERING EXCELLENCE”

LANDING SECTION	WHO WE ARE	OUR ETHOS	WHAT WE DO	INNOVATION AT THE CORE	BUILDING TYPOLOGIES	WHY US	OUR DESIGN PHILOSOPHY	CALL TO ACTION
--------------------	------------	-----------	------------	---------------------------	------------------------	--------	--------------------------	----------------

WHO WE ARE

- Versatile Design Team Lead, Trainer, and Principal Consultant. Proven success in steering diverse building projects with visionary leadership.
- Expertise in project management, innovation, and client relations. Committed to design excellence and team growth.
- 39 Years of total experience. 18 years of experience as a principal consultant.
- Awarded the **DOCTORATE IN HUMAN RIGHTS** (Honoris causa) Conferred by board of the World Human Rights Protection Commission (WHRPC)
- Active Member - **WHRPC**
- Master degree in Sociology
- President- 2022-23
ISHRAE (Indian Society of Heating Refrigerating and Air-conditioning Engineers) - Chennai Chapter

OUR SUCCESS STORY

“WE EXCEL IN OPTIMIZING CAPACITY IN THE MOST EFFECTIVE AND EFFICIENT WAYS WITHOUT COMPROMISING THE DESIGN INTENT.”

- ADES is an innovative MEP consultancy passionately dedicated to delivering measurable benefits to our clients.
- With a continuously expanding team, ADES offers comprehensive MEP Building Services across all sectors of the property and construction industries.

VISSION

“Committed to work-life balance while delivering excellence that empowers our clients’ success by offering.”

- Optimised design solutions
- Energy efficient
- Industry standard high quality
- Business Ethics

VALUES

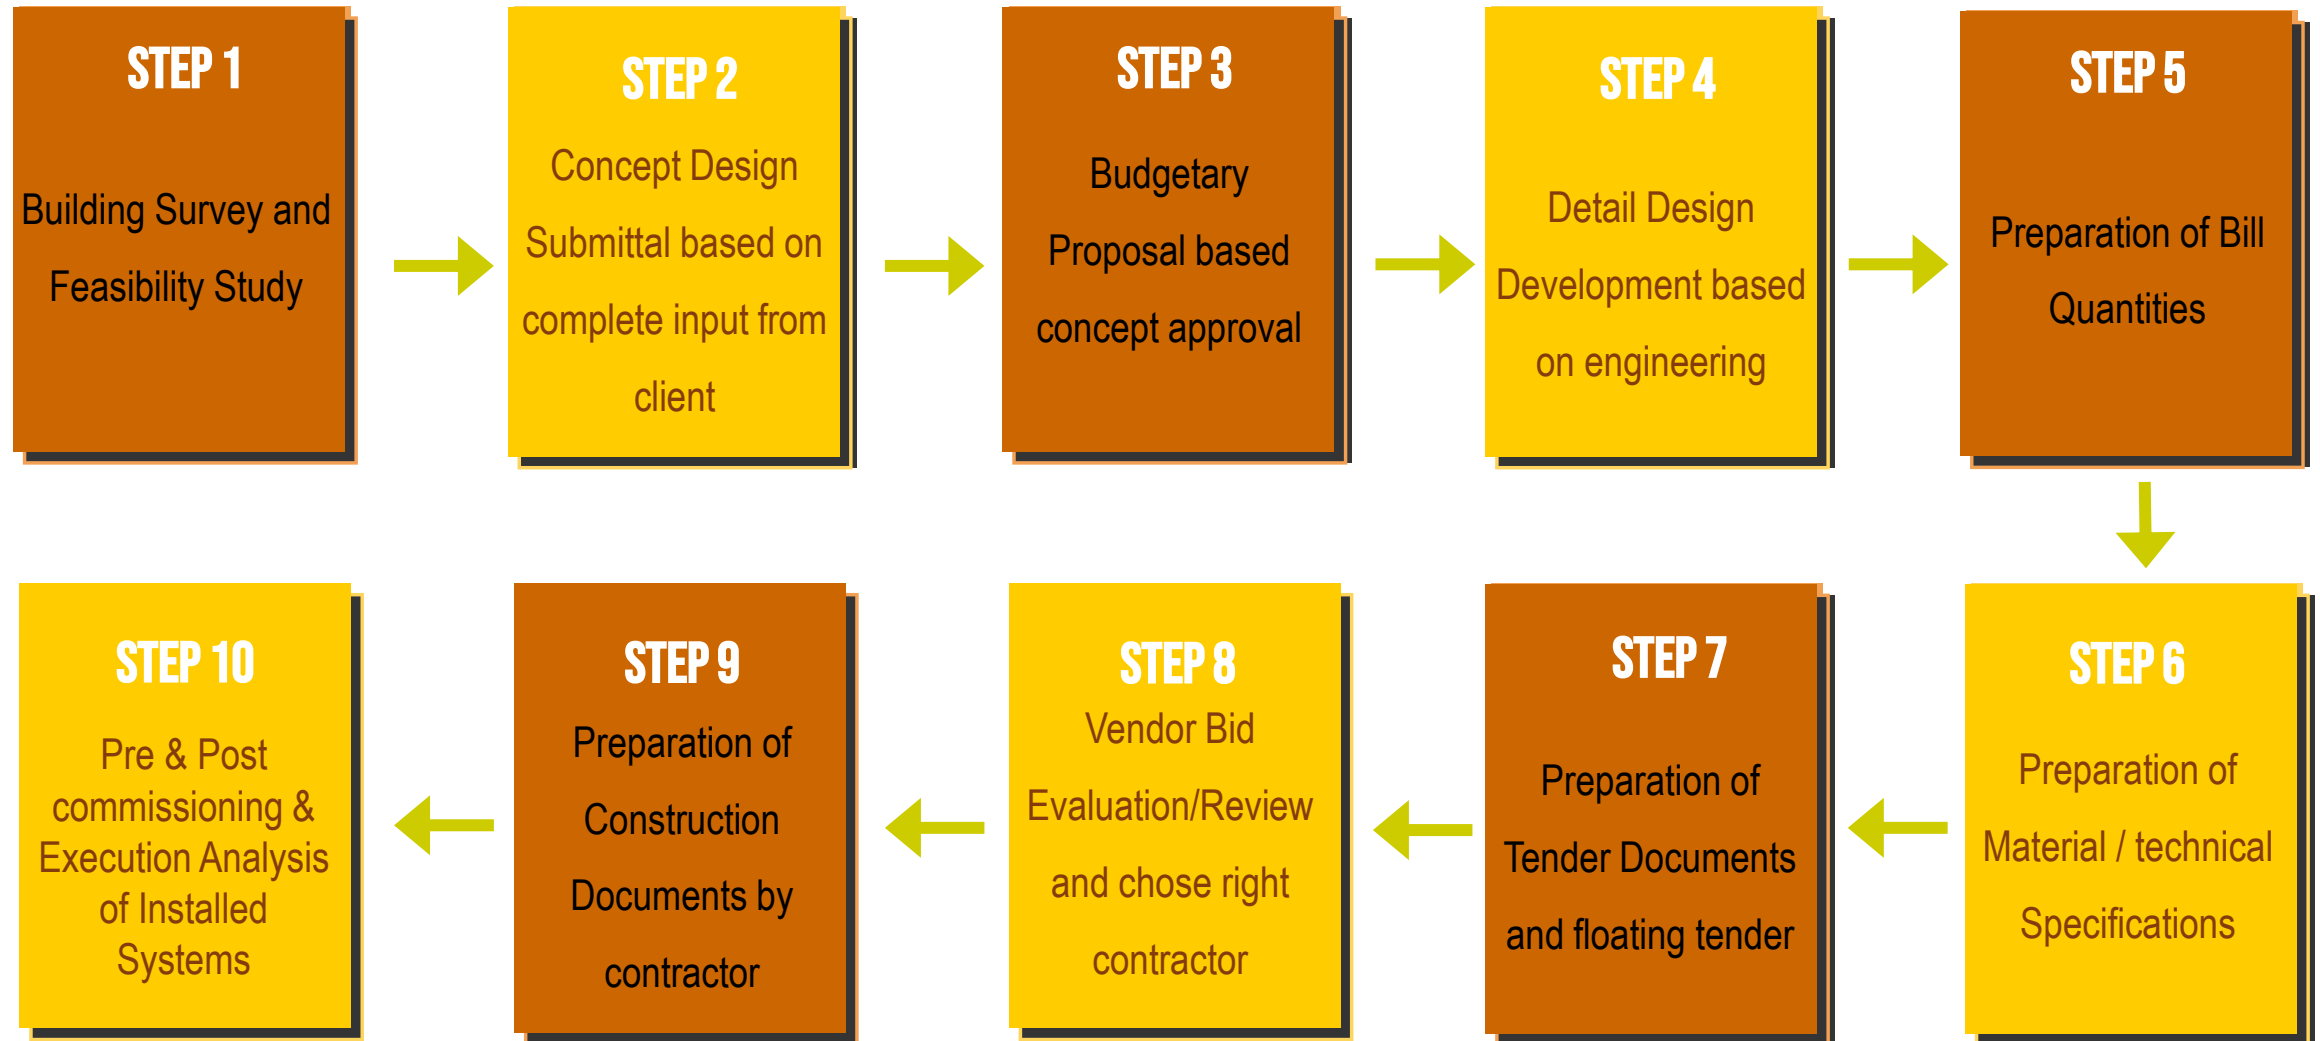

- Work-Life Balance
- Passion
- Ownership
- Respect and Integrity
- Excellence

MISSION

- **Ades** is committed to delivering high-quality, cost effective projects by employing and supporting motivated, flexible, and focused individuals.
- We value the importance of our Relationships and will continue to remain fair and true in our dealings with all employees, clients, subcontractors, and partners.

--------------------	------------	-----------	------------	---------------------------	------------------------	--------	--------------------------	----------------

WHAT WE DO

1. SMART & ENERGY-EFFICIENT BUILDING DESIGN

- * High-performance HVAC optimization
- * Low-energy building systems
- * Demand-based ventilation control
- * Energy modeling & simulation
- * Net-zero / green building strategies

2. BIM-BASED INTEGRATED DESIGN

- * 3D coordinated MEPF modeling
- * Clash detection & resolution
- * Digital twins
- * Multi-disciplinary BIM integration
- * Construction visualization

3. SUSTAINABLE ENGINEERING SOLUTIONS

- * Water conservation systems
- * Rainwater harvesting integration
- * Solar power integration
- * Carbon footprint reduction strategies
- * IGBC / LEED / GRIHA compliant designs

4. INTELLIGENT HVAC ENGINEERING

- * AI-based load optimization
- * Chilled water system optimization
- * CFD analysis for airflow studies
- * Indoor air quality enhancement
- * Thermal comfort engineering

--------------------	------------	-----------	------------	---------------------------	------------------------	--------	--------------------------	----------------

WHAT WE DO

5. ADVANCED FIRE & LIFE SAFETY ENGINEERING

- * Performance-based fire design
- * Smoke management systems
- * Fire evacuation simulations
- * Integrated fire command systems
- * Code-compliant life safety strategies

6. ELECTRICAL & SMART INFRASTRUCTURE SOLUTIONS

- * Smart power distribution
- * Energy monitoring systems
- * EV charging infrastructure
- * Data center power reliability
- * Intelligent lighting controls

7. DIGITAL ENGINEERING & AUTOMATION

- * IoT-enabled building systems
- * Smart building integration
- * Building Management Systems (BMS)
- * Automated controls & monitoring
- * Predictive maintenance strategies

8. PROJECT OPTIMIZATION & VALUE ENGINEERING

- * Lifecycle cost optimization
- * Design audits & peer reviews
- * Space optimization
- * CAPEX & OPEX reduction
- * Technical risk mitigation

9. INDUSTRIAL & MISSION-CRITICAL SOLUTIONS

- * Clean room engineering
- * Data center MEPF systems
- * Pharma & healthcare engineering
- * Industrial ventilation systems
- * High-reliability utility infrastructure

10. RESILIENT & FUTURE-READY DESIGN

- * Climate-responsive engineering
- * Disaster-resilient systems
- * Redundancy & reliability planning
- * Future expansion readiness
- * Smart city infrastructure integration

TAMILNADU TOURISM AWARDS - 2023

THE BEST THEME RESTAURANT

HONOURS & AWARDS
AWARDS IN SUSTAINABILITY

GLOBAL RESEARCH CENTRE, APOLLO TYRES, CHENNAI

NDTV

Design & Architecture
Award 2016

- Apollo Tyres Ltd R&D Centre, Chennai
- Iconic building in Oragadam SIPCOT industrial area
- HVAC/MEP system challenges with 100% Glazed Envelope
- LEED Gold Certification achieved
- Efficient MEP system design

KEY HILIGHTS

INDUSTRY

LESS COOLING CAPACITY & COST

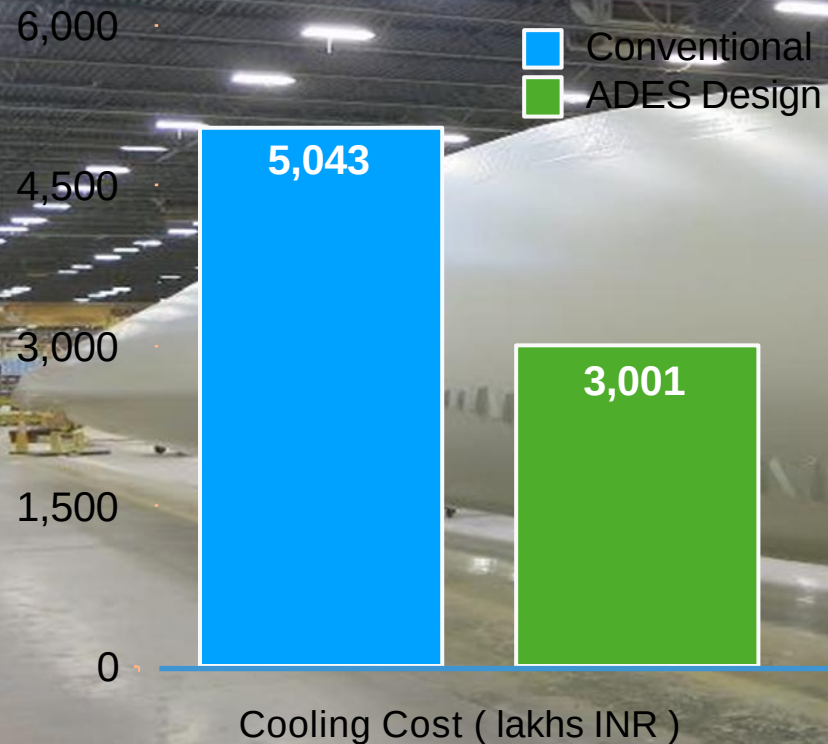

Detailed Calculation
resulted in

40.5%

Reduction on Cost

2042 lakhs

Cost Saving

- 4,000 TR Cooling Capacity was Optimised to 2,400 TR
- Electrical System Transformer infrastructure was reduced by 2,000 kVA

- Ideal airport-adjacent location
- Height restrictions due to Airport Authority
- Unused 27,000 sq. ft. terrace
- ADES cleared utility services
- Removed 25-year-old chimneys
- **REVITALIZED TERRACE INTO REVENUE-GENERATING GUEST SPACE**
- Added outdoor lawn for events
- Significantly increased client value our client

"REVITALIZED BASEMENT

**RECLAIMING 3,300 SQFT
USED FOR SPA"**

**It has now been transformed into a
functional guest space, generating
revenue.**

WHY US

INNOVATIVE ENGINEERING SOLUTIONS

Integrated Engineering Solutions tailored for performance. We specialize in MEPZ coordination to deliver

1. cost-effective
2. energy-efficient building systems.
3. Technical Excellence
4. Innovative Engineering Solutions
5. Future-Ready MEPF Solutions
6. Intelligent Building Engineering
7. Sustainable & Smart Engineering
8. Integrated Engineering Innovation
9. Next-Generation MEPF Design

OUR DESIGN PHILOSOPHY

ENGINEERING BUILDINGS AS INTELLIGENT LIVING SYSTEMS

We believe MEPF systems are not merely utilities — they are the operational lifeline of every building. Our design philosophy is centered on creating intelligent, integrated, and future-ready engineering environments that

- enhance performance,
- efficiency, safety
- human comfort.

We approach every project with a balance of

- technical precision,
- sustainability,
- innovation,
- practical functionality.

By integrating Mechanical, Electrical, Plumbing, and Fire Protection systems into one coordinated ecosystem, we deliver buildings that operate seamlessly throughout their lifecycle.

“Engineering smarter building ecosystems through integrated, sustainable, and performance-driven MEPF design.”

“We design intelligent MEPF ecosystems that seamlessly integrate performance, sustainability, safety, and human comfort.”

OUR DESIGN PHILOSOPHY

ENGINEERING BUILDINGS AS INTELLIGENT LIVING SYSTEMS

By integrating Mechanical, Electrical, Plumbing, and Fire Protection systems into one coordinated ecosystem, we deliver buildings that operate seamlessly throughout their lifecycle.

Our philosophy emphasizes:

- Integrated multidisciplinary coordination
- Sustainable and energy-efficient engineering
- Performance-driven system design
- Smart and digitally enabled infrastructure
- Lifecycle optimization and operational reliability
- Safety, resilience, and code compliance
- Human-centric environmental comfort

We design beyond compliance — creating engineering solutions that are adaptable, scalable, and built for the future.

“Engineering smarter building ecosystems through integrated, sustainable, and performance-driven MEPF design.”

“We design intelligent MEPF ecosystems that seamlessly integrate performance, sustainability, safety, and human comfort.”
